Presents

A Dr. Leonard Abrams Distinguished Speaker Series Lecture

Confronting Controversies in Implant Dentistry:
Practical Application of the Data

Date: Thursday – November 7, 2013
Time: 9:00 a.m. – 12:00 p.m.
Registration: 8:30 a.m.
Location: Temple University Student Faculty Center
3340 North Broad Street, Auditorium
Philadelphia, PA 19140

Tuition: Temple Dental Faculty, Alumni, Residents and Students: FREE
All Others: $75 (Breakfast & Lunch Included)

Credits: 3 (L)

Certain types or aspects of implant supported prosthetic restorations (cantilevers, implants connected to teeth, increased crown to implant ratios and angulated abutments) are associated with increased stress, which may induce biological and technical complications that reduce their survival rates. However, the above prosthetic constructs have not demonstrated increased failure rates when compared to “routine prosthetic protocols”. This presentation reviews contemporary data with respect to the above issues and presents concepts pertaining to bone adaptation that may account for high survival rates of prostheses that are subjected to increased stress.

Upon course completion, you will:

- Differentiate between clinical and statistical significance.
- Expand treatment options by practically applying data in the dental implant literature.
- Comprehend components of what factors need to be considered to make a realistic periodontal appraisal of compromised teeth.

Presenter

Gary Greenstein, DDS, MS
Dr. Greenstein is a graduate of NYUCD and received his MS from the University of Rochester. A Board Diplomate of American Academy of Periodontology, he has authored more than 100 articles on periodontal and implant therapy and has been the recipient of the following awards: the Gies Award for contributions to literature, American Academy of Periodontology; the Hirschfeld Award, Northeast Society of Periodontology; Fellowship Award and Distinguished Service Award, American Academy of Periodontology. He is a Clinical Professor in the Department of Periodontology in the College of Dental Medicine at Columbia University.

To Register:

Call Nicole Carreño at 215.707.7541 or Email at ncarreno@temple.edu and provide your name, alumni graduation year and email address.
