Educational Objectives:
By the end of the week, presentation participants should be able to:
1. Describe basic techniques for preventing medical emergencies
2. Discuss appropriate roles for staff members during a medical emergency
3. Discuss general procedures required for common medical emergencies
4. Prepare a list of emergency medicines and equipment
5. Review and/or prepare a dental office for treating medical emergencies

Course Overview:
Dental teams recognize the importance of proper office & staff preparation for the occasional medical emergency. This topic need not be complex or intimidating for the dental team to provide excellent responsive and supportive care. An informative and low stress presentation filled with stories and humor to illustrate the points. Refresh yourself and your approach to office medical emergencies by joining us for an updated look into this vital subject.

Speaker: Dr. Steven Filler

Dr. Filler is a popular and experienced lecturer on the topic of dental medical emergencies. His simple, straightforward approach, mixed with humor and common sense make him an audience favorite. He is a fellow and former president of the American Association of Hospital Dentists and currently serves as a professor in the Department of Restorative Sciences at the University of Alabama at Birmingham School of Dentistry.
